

Please take a chance to get acquainted with the opportunity to participate in the unique project for furniture cluster organization in the Republic of Belarus (Smorgon region), which will bring together woodworking and furniture manufacturing companies, products suppliers and services enterprises.

One of the cluster participant is the company Kronospan - the largest wood panels manufacturer in the world.

We offer investors the location of enterprises in close proximity to the raw materials suppliers and target markets, manufacturing and marketing cooperation within the cluster, tax and customs preferences of the free economic zone, infrastructure provided land plots and prepared production premises. These unique advantages allow to reduce projects payback terms on the average by 50%.

We kindly invite you to visit the official website www.furniturecluster.by and get acquainted with the project details and its implementation prospects.
