The basic principles of our policy are controlled price policy, limited number of partners at the territory of the region, readiness to take part in development and financing of the sales promotion program, achievement of maximum presence of our products in the territories.

The international quality standards of beer production are introduced at the enterprise. The established quality requirements for water, malt, mash, end final products have wider range of indicators and tougher standards. The introduced standards are based on the Good Practices of the leading world breweries. Assessment on compliance to these requirements is based on control methods according to Analytica techniques of the European Brewing Convention and the Central European commission for the analysis of brewing production products (MEBAK).

The open joint-stock company offers good conditions of cooperation for each buyer (competitive price, wide range of containers (euro and a branded glass bottle 0,5l; PET-bottle of 1,0l, 1,5l, 2,0l; aluminum can 0,5l., kegs), efficiency in execution of orders, permanent availability of fresh products, possibility of production under the private trademark of the buyer). Delivery of goods is made on FCA terms. Customs clearance of products is made at the expense of the enterprise.

Open JSC Krinitisa is interested in building long-term relationships. We are ready to consider any offers on cooperation.
